

/// VICTORY V8

We make it visible.

THE MOMENT WHEN STATE OF THE ART OPTICS ACHIEVE VERSATILITY IN ANY SITUATION.

THIS IS THE MOMENT WE WORK FOR.

Nothing demands greater versatility than hunting. You never know what hunting conditions you will find yourself in, so you constantly have to deal with new and unexpected situations. Whether on driven hunts where the game typically crosses the open area at short range and high speed, or in the mountains where hunting success often depends on a precise long-range shot, or during stand hunting when the quarry only appears with the last traces of light. As a result, both the hunter and equipment must exhibit top performance and flexibility at all times and in all situations. This is why we have built the best riflescope in the history of ZEISS: The VICTORY V8. This isn't just an empty claim – we have the evidence to prove it: With a maximum zoom and reticle adjustment range, brilliant optics and the best handling. There is no doubt about it – this is the ultimate all-purpose device for all distances and requirements. The new VICTORY V8: By hunters, for hunters.

ZEISS VICTORY® V8.

THE ULTIMATE SUPER-ZOOM RIFLESCOPE.
FOR ANY DISTANCE AND ANY SITUATION.

/// VICTORY

ZEISS. PIONEER SINCE 1846.

SCHOTT
HT GLASS

- One riflescope for all hunting situations: Largest zoom range
- For all distances: 36 mm medium scope with maximum reticle adjustment range
- Outstanding image quality with 92 % light transmission: FL lenses, **SCHOTT** HT glass and extremely wide angle fields of view
- Uniquely compact and elegant: State of the art optical concepts, ZEISS design
- Comfortable, quiet and precise: Extremely fine illuminated dot with innovative and unique eyepiece-mounted control
- Accurate aiming at any range: ASV LongRange bullet drop compensation with 100 clicks

ZEISS VICTORY V8. THE BEST RIFLESCOPE BY ZEISS.

The new ZEISS VICTORY V8 is the riflescope that all others in the world, will be measured against. It sets a new standard in the premium class with numerous hugely impressive innovations. From the driven hunt, stalking and stand hunting through to long-range shooting – the VICTORY V8 is always the best choice and provides impressive proof of its superiority: No other riflescope has ever demonstrated such flexibility and versatility. The main reason for this is the maximum zoom and reticle adjustment ranges. The VICTORY V8 gets its outstanding image quality and target resolution from the light transmission of 92% (unrivalled in this class), FL lenses, SCHOTT HT glass and the extremely wide angle field of view. The ergonomics of the design also set new standards. The world's finest illuminated dot can be operated easily and precisely, while the short and compact design provides for perfect handling. The crowning feature of the new VICTORY V8 is the new ASV LongRange bullet drop compensation, which ensures maximum range thanks to the large adjustment potential. No matter what hunting situation you find yourself in: The VICTORY V8 always guarantees you absolute precision and perfection. The only true all-rounder.

VICTORY V8
1.8–14 x 50,
original size

**ASV LongRange bullet drop compensation:
Accurate aiming at long distances. NEW**

There is one more reason why the VICTORY V8 is absolutely unrivalled: The ASV LongRange bullet drop compensation. The fact that the shooting distance is clearly displayed makes the ASV the most intuitive and therefore the most precise long-range shooting concept on the market. Thanks to the larger adjusting range with 100 clicks, it also allows you to maintain your aim even at long distances and is therefore of particular interest to long-range marksmen.

ZEISS VICTORY V8.

MORE VERSATILE, PRECISE AND ELEGANT.

(M) 1.8–14 x 50

This compact all-rounder is suitable for many applications and offers maximum accuracy at any distance. Relaxed viewing and intuitive targeting guarantee fast and reliable shots. The large zoom range (1.8–14 x) with parallax compensation makes this scope the ideal companion in any situation – from driven hunts to stalking and stand hunting in twilight.

(M) 2.8–20 x 56

The reference model of the VICTORY V8 line. The magnification of up to 20 x, combined with the standard ASV LongRange bullet drop compensation, the parallax compensation and the larger adjustment range, stands for ultimate long-range shooting ability. With a transmission of 92 %, it also offers high light reserves into the night. In summary, it is the most precise and powerful riflescope by ZEISS.

All VICTORY V8 models are equipped with LotuTec® technology and available with or without rail. The ASV LongRange is standard on the VICTORY V8 2.8–20 x 56 and available as an option on the 1.8–14 x 50. A side-adjustable ASV is available for all models as an option. You can find more information on our website at www.zeiss.com/sports-optics.

Choice of illuminated reticles depending on model

Model	Image plane	60
(M) 1.8–14 x 50	2	•
(M) 2.8–20 x 56	2	•

The ZEISS VICTORY V8 models are not available in all countries. For more information please contact your authorized ZEISS dealer.

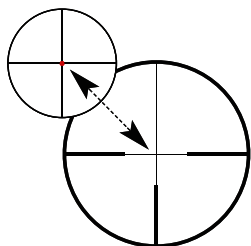

Intuitive ease of operation and perfect ergonomics.

Simple, fast and quiet operation defines the new standard of the VICTORY V8 riflescopes. The illuminated dot is activated with the multi-function knob and can be adjusted smoothly to the prevailing light conditions. Thanks to the intelligent motion sensors, not only is the battery life extended dramatically but the illuminated dot is also activated automatically when the rifle is raised for aiming.

TECHNICAL DATA.

	1.8–14 x 50		2.8–20 x 56	
Magnification	1,8x	13,5x	2,8x	20x
Effective lens diameter	18,6 mm	50 mm	27,5 mm	56 mm
Exit pupil diameter	10,3 mm	3,7 mm	9,9 mm	2,8 mm
Twilight factor	5,1	26	7,9	33
Field of view at 100 m	23 m	3,1 m	15,5 m	2,1 m
Objective viewing angle	13,1°	1,8°	8,9°	1,2°
Diopter adjustment range	–3,5/+2 dpt		–3,5/+2 dpt	
Eye relief	95 mm		95 mm	
Size of illuminated dot at 100 m at max. magnification	0,5 cm		0,4 cm	
Parallax-free	50 m–∞		50 m–∞	
Square Adjustment range at 100 m (Height/Side)	310/200 cm		210/135 cm	
Adjustment per click at 100 m	1 cm		1 cm	
Centre tube diameter	36 mm		36 mm	
Eyepiece tube diameter	46 mm		46 mm	
Objective tube diameter	56 mm		62 mm	
Coating	LotuTec		LotuTec	
Nitrogen filling	Yes		Yes	
Water resistance	400 mbar		400 mbar	
Functional temperature range	–25/+50 °C		–25/+50 °C	
Length	343 mm		350 mm	
Weight without inner rail	680 g		830 g	
Weight with inner rail	700 g		850 g	
Order number				
– without inner rail	52 21 17		52 21 37	
– with inner rail	52 21 16		52 21 36	

Technical notes: The design and scope of delivery related to technical developments may be subject to change. No liability for mistakes or printing errors.

Illuminated reticle 60 – extremely small and bright illuminated dot.

On all models, it is located in the 2nd image plane and keeps the reticle fine and constant across the entire magnification range – thus ensuring minimum target coverage and noticeably higher aiming accuracy at long range.
