

NINOX

Night Vision Goggle

If low-cost, high quality head-mounted night vision is what you need, the Armasight Ninox is the best choice. The Generation 1 Ninox comes complete with a head mount (which allows the unit to be positioned over either eye) and it is the perfect in-expensive hands-free option for air soft games, paintball, hunting or security – for these activities at night, the Armasight Ninox will give you the edge. A built-in short range IR illuminator allows the Ninox to work well even in complete darkness, and an optional Armasight long range infra-red illuminator will dramatically boost viewing range if required. The Armasight Ninox features all-glass optics, a push-button control and rugged reinforced composite housing.

- Ⓐ **Compact and lightweight**
- Ⓐ **Designed for hand-free operations**
- Ⓐ **High-resolution Gen 1+ Image Intensifier Tube**
- Ⓐ **Built-in flood infrared illuminator**
- Ⓐ **Fully adjustable headgear for ultimate comfort**
- Ⓐ **Flip-up headgear**
- Ⓐ **Can be used in conjunction with long range IR illuminator**
- Ⓐ **Water and fog resistant**
- Ⓐ **Limited two-year warranty**
