## WARNING

Directly viewing the sun or any intense light source with this optical device may cause permanent eye damage.

## FOCUSING

1. Point your spotting scope in the direction you want to view.
2. Rotate the eyepiece zoom ring (B) to the lowest magnification.
3. Adjust the focus knob (C) until you get a clear image.
4. Rotate the eyepiece zoom ring to the desired magnification and re-focus with the focus knob if necessary.

## TWIST-UP EYE-CUPS

Eyeglass users will normally need the eye-cups (D) twisted down. Users not wearing eyeglasses should adjust the eye-cups upwards for optimum eye relief.

## CARING FOR YOUR SPOTTING SCOPE

1. Keep lens covers on your spotting scope when not in use.
2. When cleaning the lenses, use the lens cloth that comes with your spotting scope, or a soft, lintless cloth.
3. To remove dirt, add one or two drops of isopropyl alcohol to the cloth.
4. Store your spotting scope in a moisture free environment.
5. Never attempt to clean your spotting scope internally or try to take it apart.
6. Your spotting scope is fog and waterproof in normal weather conditions, but is not designed to be submerged in water.

## HAWKE WORLDWIDE WARRANTY

Your new spotting scope body has a limited lifetime warranty (restricted to 10 years in Europe) against premature failure due to defects in materials and/or workmanship.

Your new spotting scope eyepiece has a 2 year warranty against premature failure due to defects in materials and/or workmanship.

These are subject to the following conditions:

- The warranty does not cover failure due to damage caused by abuse.
- The warranty does not cover failure from excessive wear and tear even within the warranty period.
- A bill or computer generated proof of purchase must accompany your claim.
- Should any original defect appear, please log your warranty claim with your retailer or at [www.hawkeoptics.com](http://www.hawkeoptics.com)

This warranty is limited to the original purchaser and is in addition to your statutory rights.
