- Established UTG PRO® USA Manufacturing
- Established R&D and Manufacturing Center in PRC
- Established UTG Europe Distribution Center in Germany
- Vertical Integration and Expansion Now Reaches Globally

2013 - 2017

- Launched UTG World Class Wireless and Paperless Order Fulfillment Center
- Expanded USA Injection Molding Production & Launched USA In-house Cerakote® Operation
- Launched Industry-leading Enterprise Resource Planning (ERP) System

2018 - 2021

- Established UTG Taiwan Manufacturing Center
- Presence and Foothold in Global Marketplace Well Established
- Continuous Development of Our Next Generation Optics
- Established UTG PRO® Proving Grounds - 100 Yard Indoor Shooting Range

THE FUTURE

Established in 1992, Leapers, Inc. develops, manufactures, and distributes a wide variety of hunting and shooting sports-oriented products across a multitude of different platforms. What once started as a garage business selling a single SKU, a compact 4X28 scope, is now a 4-building complex in Livonia, Michigan, with around 150,000 square feet. The headquarters of our in-house product design, development, manufacturing, indoor proving grounds, and advanced order fulfillment and distribution. Over 700 SKUs later, our UTG® brand and USA made brand, UTG PRO®, have gained wide market recognition across the globe.

2022 is the year of our 30th anniversary and after years of unrelentless efforts advancing R&D, manufacturing, assembly, distribution, and technical know-how a new line has been drawn. Leapers, Inc. is proud to announce, INTEGRIX™, a new branded line of higher tier products. INTEGRIX™ is a culmination of integrated and intelligent design, R&D, and execution bringing first to its name, new generations of FFP and SFP optics (refer to page 019).

Discover and be part of our momentum for the years to come as we continue to dedicate and commit to providing customers with solution-driven hunting and shooting sport-oriented products and services. With our united and fully integrated resources, Leapers, Inc. is your next trusted partner in the search for quality products and service.

UTG PRO[®] PROVING GROUNDS

Established in 2021 and the latest expansion to our Livonia, Michigan UTG PRO[®] campus, our indoor 100 yard shooting range is part of our continued commitment to improve upon the past, make impact in the present, and provide better in the future. The range is equipped with Action Target's latest GENESIS[™] Target Retriever system. An industry-leading, sophisticated, and dynamic range system picked specifically over others to streamline and efficiently optimize our live-fire product testing and employee training.

Locally, there is certainly something to be said about the benefits of having an indoor 100 yard range, rated up to .50 BMG no less, within the greater Detroit area. There are not many around and in addition to having a long cold season and temperamental weather in general, having one in our backyard is a game changer.

Although there is no substitute for the great outdoors and the extensive 1,000 yard optics testing and long-range precision training we do off-site, more time and rounds can be dedicated and spent more often and quickly downrange indoors towards improving our product testing and validation, the way our representatives assist you, and the performance upon which you expect when purchasing our products.

United together in supporting, upholding, and uplifting the right to bear arms. Trusted by enthusiasts for enthusiasts with a guarantee that never tires. Quality products and services. Driven commitment.

OPTICS

A NEW LINE HAS BEEN DRAWN.

New optics, completely designed from the ground up with sleeker aesthetics, feedback driven ergonomics, proven clarity, and quality materials. Explore new etched-glass reticle options with matching turrets such as our new ballistic drop compensation (BDC) and range estimating reticles. See the difference in contrast, resolution, and FOV through our optimized and proven light transmission. Pick your preference and make your mark with a first or second focal plane optic newly built on German and Japanese glass.

INTEGRIX™ FFP OPTICS | **NEW!**

INTEGRIX™ SFP OPTICS | **NEW!**

ACCUSHOT® OP3 OPTICS

Improved resolution through optimized internal light transmission pathway. Crisp and tactile turret movement with exacting increments and consistent per click adjustment. Lockable eyepiece diopter. Updated IPX7 waterproof rating. Clear and concise refinements to take you a step above.

ACCUSHOT® SCP3 OPTICS

Loaded features with a plethora of models to choose from, catering to the specific needs of the individual shooter. Whether for the hunt, defense, recreation, and or competition, UTG® is with you.

TRUE HUNTER® OPTICS

No frills, tried and true 1 inch classics focused built on the essentials. Take with you on the hunt, fitting parallax adjustment, out-of-the-box Picatinny or Dovetail scope rings, coated lenses, and fog proof, rain proof, and shock proof performance.

BUGBUSTER® OPTICS

One of our best-selling scopes known by many for its 3 yards to infinity parallax adjustment range, compact and lightweight size, and platform versatility. Illuminated and non-illuminated options available with models reaching as high as 12X magnification.

INTEGRIX™

A critical decision made often by shooters is what optic to pick for their firearms. It is a decision, one of integrity and intelligence to justify what we consider to be quality. The voice of the customer has spoken. Leapers, Inc. has listened.

Through 30 years of listening to our customers, we have learned that quality optics achieve optimal performance only when superior optical design and mechanical precision integrate seamlessly under the strictest tolerance control. When such standards are met at the manufacturing level, our customers' dreams come true.

Leapers, Inc. brings to the forefront of shooters, the culmination of integrated and intelligent optical design and manufacturing. **THIS IS INTEGRIX™.**

A HIGHER BASELINE

Optics, at Minimum, are Rated for .338 Lapua Magnum.

A CRAFTED DIFFERENCE

Optics Feature an Erector Tube with a Precisely Manufactured Zoom Cam Curve for Consistently Tensioned, Smooth, and Accurate Adjustment.

CONTEST ANYWHERE

Optics Reliably Perform in Adverse Temperatures from -40° to 160° Fahrenheit and are IPX7 Rated.

PREFERRED ILLUMINATION

Optics Come Standard with Reticle Illumination and a Favorable 20,000+ Hours Battery Life.

INTEGRIX™

THE CULMINATION OF INTEGRATED & INTELLIGENT OPTICAL DESIGN & MANUFACTURING.

INTEGRIX™ is pinnacle performance. Years of experience brought to the forefront through expert development and evaluation, countless testing, and meticulous manufacturing. German and Japanese glass lenses used exclusively in every INTEGRIX™ optic are individually centration tested, multi-coated for glare, reflection, and scratch resistance, and upon assembly are inspected for concentricity as a whole.

THE END RESULT? Low aberration optimized image quality with over a 92% light transmittance, edge-to-edge sharpness, minute distortion, and high contrast resolution.

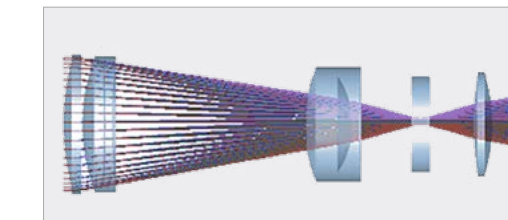

END-TO-END CONSISTENCY

Optics Strictly Maintain a Smooth, Consistent, and Accurate Transition When Traversing Throughout its Magnification Range.

ETCHED GLASS RANGE-ESTIMATING A1 MOA RETICLE

At 1X, a quick-to-acquire T-Dot enclosed within a 68 MOA segmented circle makes close up work, quick and to the point, functioning similarly to a dot sight. At higher magnifications the reticle opens up to provide users with a crisp 1 MOA center dot, range estimation out to 600 yards, and hash marks up to 60 MOA vertically for holdover and 30 MOA horizontally left and right in 2 MOA increments.

ETCHED GLASS A2 MOA RETICLE

An unobtrusive floating center crosshair focuses the eyes to the center of the reticle while freeing up space between it and the rest of the reticle, providing shooters with space to view critical target details at the point of aim. The center crosshair illuminates in either red or green and is accompanied by a vertical axis that spans 10 MOA up and 60 MOA down and a horizontal axis that spans 30 MOA left and right all in 1 MOA increments.

ETCHED GLASS B1 BDC RETICLE

The B1 BDC reticle provides an uncluttered view of the target using a simple quick-to-acquire circle dot at 1X. The circle dot portion of the reticle illuminates in red or green when needed. Throughout its 1X to 8X magnification, the SFP reticle remains the same, letting shooters get thoroughly acquainted with the reticle's quick target acquisition at 1X and its ballistic drop compensation (BDC) at 8X out to 800 yards.

ACCUSHOT® OP3 CROSSBOW SCOPE

130 HUNTER BDC RETICLE

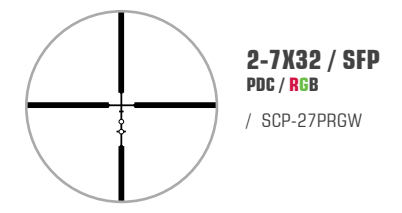

The bubble leveler is internal and is not a separate external attachment. Located unobtrusively at the 6 o'clock position, the bubble leveler aids in correcting any cant the user may have while aiming. Being internal allows the user to focus their attention primarily on the target and reticle, while secondarily allowing for quick cant adjustments by seeing the leveler through their peripherals.

RING MOUNTS

STAY TRUE. STAY ZEROED PERIOD.

Debuting our new quick release (QR) lever mount, ACCU-SYNC® QR cantilever mounts and rings provide shooters with more height profiles and tube compatibility options with additional features shooters have asked us most for. Enjoy tool-free tension adjustment, locking QR levers, lightening cuts for reduced weight, and squared recoil stops for a secure and repeatable zero. Complete the package with an ACCU-SYNC® Leveler for a low profile anti-cant bubble leveler with or without a secondary 12 O'clock MRDS mount.

ACCU-SYNC® QR SCOPE RINGS & CANTILEVER MOUNTS **NEW**

Accuracy synchronized. Tool-free tension adjustable with locking quick release levers. Wide-range tension adjustment range virtually accommodates both in and out-of-spec Picatinny rails. Lightening cut for reduced weight and rated for .338 LAPUA Magnum. Set-it-and-forget it and stay synchronized with a secure and repeatable zero.

ACCU-SYNC® CANTILEVER MOUNTS & SCOPE RINGS

CNC machined 6061-T6 anodized aluminum construction, Lightening cut for reduced weight, and with models available for 1", 30mm, and 34mm optics. Features squared recoil stops and a full-length side plate for a secure zero hold.

ACCU-SYNC® ANTI-CANT LEVELERS **NEW**

Magnetically secured flip-to-side anti-cant bubble levelers. Direct replacement ring tops for ACCU-SYNC® cantilever mounts and rings with mechanical offsets. Anodized 6061-T6 aluminum construction with models available for 1", 30, and 34mm optics.

UTG PRO® P.O.I.® SCOPE RINGS

Michigan made and featuring a precision machined inner ring surface for a seamless ring-to-scope interaction. Flush-fitting steel locking side plates, controlled by dual spring-loaded guide rods, ensure a secure and repeatable zero alongside machined squared recoil stops that eliminate forward and aft movement from recoil.

30TH ANNIVERSARY | 1992 - 2022

ACCU-SYNC® QR SCOPE RINGS & CANTILEVER MOUNTS

ACCU-SYNC® QR scope rings and cantilever mounts. Accuracy Synchronized. Featuring a locking quick release lever mount that is tool-free tension adjustable, shooters simply rotate an adjustment gear to increase or decrease the tension applied by the mount, which in turn, virtually accommodates both in and out-of-spec Picatinny Rails. Tested, validated, and proven to handle up to .338 LAPUA Magnum, adjustments made stay true via full contact Picatinny squared recoil stops and a keyed pin for a set-it-and-forget mode of operation. Stay lightweight, ready, and synchronized with a secure zero hold and return to zero with ACCU-SYNC® QR.

FLASHLIGHTS & LASERS

ILLUMINATE WITH CERTAINTY

Identify, assess, and proceed accordingly. Handheld and mounted solutions for the most critical and uncertain of times and situations.

VANQUISH 700 FLASHLIGHT

Our most popular handheld light with a feature set that caters to the home. Unique to the Vanquish 700, its scalable hybrid beam (large spill area with centered hot spot) dims down anywhere in between its 700 lumen high to 20 lumen low output making it a versatile flashlight for emergencies and utility work around the home.

BULLDOT® COMPACT GREEN LASER

Easy on the eyes and intuitive, the BULLDOT® compact green laser features an expanding beam diameter that increases progressively from 1" to 8" at 50 yards and beyond, quickening target acquisition and prioritizing initial shot placement up close and afar.
