SkyHawk 3.0

EXPERIENCE THE FASCINATION OF NATURE EVEN CLOSER

SkyHawk 3.0 | 10×32

Compact and lightweight binoculars with superb optical performance which enables observation from distance. The 10× magnification reveals a fascinating wealth of natural details.

SkyHawk 3.0 | 8×32

A real lightweight that is especially practical for long term observation. Thanks especially to its wide field of view it is unbeatable for all-round use in bird and nature observation.

SkyHawk 3.0 | 10×26

The ideal binoculars for spontaneous observation. The smallest and lightest pair of binoculars in the range has a surprisingly good performance and fits easily into a pocket.

THE NEW SKYHAWK 3.0

Bird watching at its most brilliant

With improved optical performance and the innovative Distance-Control-System, the new 3.0 Series represents the most attractive SkyHawk binoculars ever. Further improved in design and details, the five new SkyHawk 3.0 binoculars offer the traditional robustness and legendary quality that STEINER stands for. Ideal both as an entry-level binocular to the fascinating hobby of bird watching, or for the highest demands of experienced ornithologists: The different SkyHawk 3.0 models offer the ideal binoculars for every requirement – and do it at an exceedingly attractive price.

Developed to perfection

The SkyHawk 3.0 binoculars are a systematic improvement and boast several advantages perfectly tailor made to observing birds and nature:

Brilliant High-Contrast-Optics

Perfect colour fidelity and the sharpest focus up to close range (from 2 m).

Innovative Distance-Control-System

With the non-slip XL focussing wheel the observation distance can be pre-set and brought into sharp focus at a simple twist of the wheel.

Excellent robustness

Thanks to its Makrolon® housing, NBR-Longlife Rubber Armouring and Nitrogen-Pressure-System (Models 32 and 42) that effectively prevents fogging.

Clever ergonomics

Excellent grip with thumb depressions and ergonomically shaped eye cups ensure comfortable, lengthy observation.

Complete accessories

Neoprene carrying strap with ClicLoc, protective rain / lens caps and high quality bag.

SkyHawk 3.0 | 8×42

Perfect all-round binoculars for observation even in difficult weather conditions. The large field of view and the comfortable handling ensure unrivalled observation of nature.

SkyHawk 3.0
8×42

SkyHawk 3.0
10×42

SkyHawk 3.0 | 10×42

10× magnification for long distance observation and the bright 42 mm aperture make the 10×42 the absolute top model in the series.

	Item Number	Objective Diameter	Magnification	Weight	Width × Height × Depth in mm	Exit Pupil	Luminosity	Twilight factor	Field of View at 1000 m
SkyHawk 3.0 10×42	8033	42 mm	10 times	750 g	128×147×61	4.2 mm	17.6	20.5	≥ 108 m
SkyHawk 3.0 8×42	8032	42 mm	8 times	740 g	128×147×61	5.3 mm	27.6	18.3	≥ 125 m
SkyHawk 3.0 10×32	8034	32 mm	10 times	600 g	122×127×59	3.2 mm	10.2	17.9	≥ 118 m
SkyHawk 3.0 8×32	8031	32 mm	8 times	580 g	122×127×59	4.0 mm	16.0	16.0	≥ 133 m
SkyHawk 3.0 10×26	8008	26 mm	10 times	330 g	108×120×45	2.6 mm	6.8	16.1	≥ 96 m

STEINER High-Contrast-Optics

For detailed images and high contour sharpness

Distance-Control-System

XL-focus wheel for the presetting of observation distances with a simple twist

Fast-Close-Focus

Fast focus control, even at close range

Ergonomic eyecups

Protect the eyes against side light and drafts

STEINER ClicLoc Strap Attachment

Securely fastens to a strap and releases in seconds

STEINER Nitrogen-Pressure-System

No fogging or condensation inside the binoculars

STEINER OUTDOOR STANDARD
