# THE NEW WILDLIFE XP WITH STEINER ULTRA-HD-OPTICS

## SEE TRUE COLOURS

If you want to discover nature up-close and true-to-life you must try the new Wildlife XP with its innovative STEINER Ultra-HD-Optics. Thanks to its ultra-high definition, the bar has been raised again for high colour fidelity, highest detail resolution and optimized contrast. Our efforts in developing new kinds of glass and coatings for the lenses pay off for the user: After all, there is nothing more brilliant than nature itself!

## RAPID-PRECISION-FOCUS-SYSTEM

Swiftness and precision are of paramount importance when observing nature, animals and birds. In order for you to be ready for the big moment, STEINER Wildlife XP binoculars offer you significant advantages such as the new STEINER Precision-Setting, the Distance-Control-System or the Fast-Close-Focus. This ensures that your spontaneous observations in the wild are always successful and completely stress-free. You will find it very exciting!

## MAXIMUM OBSERVING COMFORT

Patience and perseverance are often needed to achieve excellence when it comes to wildlife observations. The high degree of observing comfort of the new STEINER Wildlife XP binoculars ensures that you stay rested and comfortable while you are waiting for just the right moment. The STEINER ComfortGrip, ergonomic rotating eyecups and STEINER ClicLoc Strap Attachment are a big plus.

The new Wildlife XP – true colours and high-contrast for exceptional and ex-citing encounters with nature.

# EXPERIENCE NATURE RAZOR-SHARP

## **Wildlife XP | 10×44**

For absolute optimum close-ups and sharpness: The high-performance optics in ultra-high definition provides true-to-life colours and excellent image sharpness right to the edge. More-over, the Wildlife XP 10×44 performs especially well in rough outdoor environments thanks to its top-notch comfort and legendary durability. This is a real must-have – perfect for the most demanding nature and wildlife observers.

## **Wildlife XP | 8×44**

With 8× magnification, ultra-high definition optical performance and a particularly large field of vision, the Wildlife XP 8×44 is a reliable and very practical companion for nature observation and all outdoor activities. Additionally, these binoculars stand out thanks to their simple and comfortable handling. You will never want to put them down!

# THE NEW WILDLIFE XP

All advantages at a glance

## STEINER Ultra-HD-Optics

The development emphasis of the current top models for observing nature and wildlife lies in excellent high-performance optics: thanks to a maximum of manufacturing precision and the use of high-quality high-end fluoride glass, an extraordinary colour fidelity, highest detail resolution right to the edge and an optimized, clear contrast are achieved. Besides the razor sharp images, the Wildlife XP will win over even the most demanding nature observers by a top-class light transmission throughout the entire visible spectrum and by offering a 3D brilliance that is reflected in sculptural images and an excellent depth of field. The Ultra-High-Definition-Optics are completed by an exceptional wide field of view.

# RAPID-PRECISION-FOCUS-SYSTEM

## STEINER Precision-Setting

Simple to operate, with exciting results: STEINER Precision-Setting – the individual dioptre settings for the right and left eyepieces allow you to perfectly adjust the binoculars to suit your personal visual acuity. Once this is set, you will be ready for any and all observation opportunities that come your way.

## STEINER Fast-Close-Focus

With the Fast-Close-Focus, time-consuming adjustments of the focusing wheel are a thing of the past. A brief spin with your finger is all that it takes to focus the Wildlife XP, revealing razor-sharp details of the wildlife you are observing with a close-focus range of 2 m. It simply does not get any faster or more comfortable than that.

## STEINER Distance-Control

Fast reaction times are often of the essence for action-packed wildlife observations. Wildlife XP binoculars are ready to go before you even bring them to your eyes: Once the estimated observing distance is pre-set on the scale of the non-slip XL focusing wheel, no more than a little fine tuning is necessary. This feature gains you valuable time for your observations.

# COMFORT-BALANCE-SYSTEM

## Maximum Comfort

The special level of comfort is not only due to the technical settings, but also to the handling of the Wildlife XP. The sophisticated ergonomics of the ComfortGrip thumb rests with Technogel stand for a safe and fatigue-proof, long-term observation, even with one handed use. A perfect balance is guaranteed. Individually adjustable rotating eyecups made of silicon protect against indirect light and wind draughts.

# EXTREME RUGGEDNESS

## STEINER Nano-Protection®

Wildlife XP binoculars provide a dependably clear view at all times due to the extremely thin Nano-Protection® hydrophobic surface finishing. This dirt and water-repellent lens coating protects against aggressive environmental conditions. Rain or snow run off immediately and disappear from the field of vision. Thanks to an eased cleaning there are no more tenacious stains on the lenses.

## High Durability

As with all STEINER binoculars, the Wildlife XP models also offer legendary durability. The lightweight die cast magnesium alloy housing is corrosion-free and shock proof. Our comfortable NBR-Longlife rubber armouring withstands the effects of oil, acid or climatic influences. Even in extremely wet conditions, heat or cold the surface stays grasp and slip proof. In addition the binoculars are nitrogenpressure filled via a two-way-valve-system that prevents fogging up and from condensating inside the binocular.

## Field-tested Accessory Set

Each Wildlife XP is equipped with soft neoprene carrying strap, whose incorporated loops permit an easy use of a body harness that is offered separately. By the thought-out ClicLoc strap attachment the strap can be fastened and released in seconds. A soft rain protection cap made of NBR rubber makes it noiseless and objective covers and a high end bag makes the accessory set perfect.
